

IEEE-Eurasip Summer School on Signal Processing

23rd-28th August 2026, San Servolo island, Venice, Italy

Organized by

S3P School in Venice, Italy

The 12th edition of the Summer School on Signal Processing (S3P-2026) will adopt the motto "From Signals to Foresight," underscoring its emphasis on the evolving interplay between Signal Processing and Artificial Intelligence. The school will cover, with the help of international experts, several interconnected topics aimed at exploring the complex relationships between multimedia signal processing and machine learning, examining how methods from each field can mutually benefit one another. Visit s3pvenice.org for details and registration.

The School Registration fee includes participation in the school, access to all course materials, coffee breaks, the welcome party, and the social event and dinner.

School Registration Fees

Student IEEE SPS Member € 650
Student Non-IEEE SPS Member € 800
Non-Student IEEE SPS Member € 900
Non-Student Non-IEEE SPS Member € 1000

Important dates

Registration opens: March 10, 2026
Application deadline: May 15, 2026
Notification of acceptance: May 25, 2026
Registration deadline for accepted participants: June 10, 2026
Summer school: August 23-28, 2026
